

## Winter Care And Appeal For Helpers, December 2006

We continue supporting brethren and sisters in need of assistance in the Eastern European Winter.

We're pleased to share with you a photo just received from Brother Ivan and his family of six children in northern Siberia. It was taken in October, and the snow has now come down with temperatures down to -35 already. They're very grateful for their cow, which is the pride and joy of the family, as it provides milk throughout the Winter and has also given birth to some calves, some of which they've eaten.

Photo: Brother Ivan and proud family with the cow

[Bro Ivan's flak jacket doesn't mean he's in the army, it's just very warm clothing he

obtained!]

Photo: Preparing meat- they eat meat about once every two weeks

Above all please do pray for our efforts and for all our brethren and sisters this Winter.

Preaching continues, and we're delighted to report the baptism of LUBOV in Bashkortostan, Russia. We're also reflecting upon how we can better develop our preaching resources in order to more powerfully explain to folk that the concepts of the trinity and a personal, fallen-Angel Satan are not Biblical. These are the two areas we have the most problem over, and we're sure you've found the same, too. We'd welcome your input. We've developed a new website about the devil, [www.realdevil.info](http://www.realdevil.info), and your feedback is most welcome, even though the site is incomplete.

With love in the Lord from

Your brothers and sisters of CCM
