

April 2011 Western Europe, Moslem World, Riga Bible Center, Summer Bible School

The *Bible Companion* readings for Sunday include Galatians 3 and 4, there's an MP3 on these chapters at <http://aletheiacollege.net/audio/gal3.mp3>

MOSLEM WORLD

According to a number of reports received from our brethren, the wave of unrest in the Moslem world is resulting in more extreme forms of Islam taking control. The Israeli Government has confirmed our impression by concluding that the regime change in Tunisia has lead to "Islamization and increase of anti-Semitism". The Jerusalem Post reports that special funding has been made available to enable all Jews there to emigrate to Israel-

We are however receiving an increased response from these very areas and we hope to report more baptisms in North Africa over the next few weeks, God willing. Please pray for this work and for our existing brethren in this troubled area. Anyone who knows French who's interested in a trip to Morocco or Tunisia would be most welcome to contact us.

We wish to record our thanks to Brother Roger Beck for the hours he daily puts in to email correspondence with the many people who respond to our websites. We're delighted to report the baptism of brother J, one of these people. After a thorough study of the Bible Basics course and returning the answers by email, we conducted a baptism service with him by telephone. He is in a radical Islamic state which we couldn't sensibly visit, and not only so, is in a personal position which makes it impossible to leave the country, and he is already on the wrong side of the regime where he is. We pray for him, but are very happy with his level of knowledge and appreciation of the Gospel.

WESTERN EUROPE

It's not only in the world's hotspots that people are turning to God in spirit and in truth. This week we were able to baptize KRISTINA. She's a truly marvellous lady and it was with joy that we witnessed her baptism into the true Gospel. We feel honoured to have been called to assist her in her path towards the Kingdom.

RIGA BIBLE CENTER

God's very special blessing continues here, and we remind you of our campaign planned for June 15-22 God willing. This week we baptized brother JANIS, here you can see our partially blind br. Vlad reminding him after his baptism of what he already well knows- how to use the *Bible Companion* in its Russian large-print format. We're so pleased to notice how everyone is getting more familiar with finding their way around the Bible and are increasingly able to contribute to in depth spiritual discussion based on God's word. We would like to make a documentary of the work at this Bible Center, and invite anyone with the appropriate video and editing skills to volunteer themselves!

SUMMER BIBLE SCHOOL

We're pleased to advise that the dates of our Summer Eastern European Bible School have been fixed for the first week of July. We're looking forward to having Br Andrew Fotheringham and Br

Rick & Sis Janine Henig from Adelaide Australia serving with us and we warmly invite your attendance too!

Brother Charlie Klennert has just arrived in Haiti and our thoughts and prayers will be with him and our brethren over the next 2 weeks as he ministers there. We're receiving regular updates of the regular teaching of three groups of contacts in Malawi. They are going through *Bible Basics* with local brethren and nearing baptism. The same situation is in Italy and Kyrgyzstan... hopefully and prayerfully we look forward to reporting good news over the next months.

With love from your brothers and sisters of Carelinks
