

July 2012 Poland etc

The *Bible Companion* readings for this Sunday include Revelation 21 and 22, and there's an MP3 on these chapters at www.aletheiacollege.net/audio/rev2122.mp3

We're pleased to report a revival of response to the Gospel in **Poland**, in which we've been much assisted by the assistance of brother Wacek, a Polish brother living in London UK. This week a visit was made to baptize an unusually spiritually mature lady, MARLENA, and her mother KRYSZYNA. She sets a great example of intense Bible study and has searched through many churches to come to the Truth, not only in doctrinal terms, but in appreciating what personal commitment to the Lord Jesus really means. Really it was a pleasure to travel out to a remote farmstead in rural Poland, truly "the back of beyond", to baptize this lovely couple who had come doctrine by doctrine to the Truth. They were well prepared for baptism and had arranged a swimming pool to be set up for the event in the backyard of their property:

Marlena first read our literature on the internet, and wanted a hard copy of Polish *Bible Basics*; but that has long been out of print. So she searched second hand online bookstores in Poland and found one store that had a copy, and bought it. You can see her and her mother with it on the kitchen table:

So in the presence of their handicapped son and grandson, in a large swimming pool in the middle of nowhere, this truly lovely couple were baptized into the real Christ. Please pray for them, and for the further spreading of the true Gospel in this very Catholic country.

We are pleased to report the cooperation of the CBM in plans to baptize another contact soon, and our prayers are with brother Wacek as he too will soon make a pastoral and preaching visit to Poland and follow up on our new sisters.

We're also happy to report the safe arrival in **Riga** of sister Susie Lange from the USA and she has already assisted in ministering to our HIV positive couple and others in Riga.

With love from your brothers and sisters of Carelinks
