CARELINKS UK

A lovely day was enjoyed by young and old alike at Marcus and Gwladys's home to witness the baptism of COLTON, who has studied *Bible Basics* and been reading the Bible with the *Bible Companion* for the last few years. His wife and family were present and there was a great sense of joy and of the smiling, acceptive presence of the Father and Son. The joy of the Angels in Heaven was truly shared by all present, including little children:

LITHUANIA

We're pleased to tell you of the baptism of DMITRY, a direct result of coming into contact with us through getting an *NEV Bible* with commentary. Our brother is very determined and has been persistent in his search for Bible Truth. He came out of drug addiction some time ago through deciding to devote himself to God, but was disappointed in how unBiblical many popular churches are. The final stage of the 12 step program is to be committed to helping others break their addiction, and Dmitry has done this, being a mentor for others still struggling to overcome. One of the men he worked with travelled in from another city to witness the baptism, and our brother is keen to distribute our Bibles with commentary to many of his contacts. We produced a brief video in Russian of him appealing to people to realize there is an alternative to addictions, through taking total responsibility rather than blaming things on Satan, and through devotion to the Bible and its message of a human, perfect Jesus and His Kingdom. You can see the movie [although all in Russian] at <http://www.youtube.com/watch?v=0eJ8OqAy9Z4>

RIGA

The Gospel continues to spread here in wonderful ways. We have mentioned before how a number of ex-military men have come to the Truth, and have spread the message to others who have had a similar path in life to themselves. The ex-military life is not easy, especially when the side you fought for- the USSR- has collapsed and you are treated as a second rate citizen because of your military background. So the Gospel reached one such man, VALDIS, and it was our pleasure to baptize him and his two adult sons ROMAN and ANDREJ. Here they are:

We'd like to remind you of the appeal made for funds to install a ventilation system at the **Riga Bible Center**. With the rapid growth of drug-resistant tuberculosis, it's really important to change the air as often as we can in the hall. This really is a major need, and whilst we appreciate your great generosity so far, there is still room for more support.

With love and joy from your brothers and sisters of Carelinks
