

Turkmenistan and Bosnia News August 2004

Two ways you can help recent work

1) Our sisters in Turkmenistan continue to be persecuted and to be in need. They are hand making various goods such as gift camels, handbags, slippers, cushion covers, scarves etc. Some of these they have already shipped to Western brethren and sisters who have commented on their quality. This is an excellent opportunity to give two sisters a fishing rod rather than a fish. They lost their jobs as a result of their conversion to the truth, and this is a way we can support them. We are looking for brethren and sisters willing to take a selection of their work and to sell them in your ecclesias or amongst your network of contacts. If you are willing to help in this, please contact us at info@carelinks.net . You can read more about our sisters at <http://www.carelinks.net/care/sis2602.htm> .

2) Our brethren in Sarajevo, Bosnia are very zealous in seeking to spread the truth of Christ and to reach out in care to their local communities.

You will see their plans outlined below, to produce a magazine about the truth, and also to distribute clothing amongst needy people in Sarajevo. Much of Bosnia is still in ruins after the bitter civil war. We are sure that we could collect much 2nd hand clothing in England and Germany. What is required is some brethren or sisters to drive a vehicle from London to Bosnia in order to get it there. Is anyone interested? If so please contact us at info@carelinks.net

I almost finish the magazine, last night i didnt sleep or eat, because i want to get it done as soon as possible. Ok this is my plan, For the first time i am going to do 300 magazines, they will go out every 10 days. Know, all this will be totaly free, and we will pass it out in Colleges, on the streets, to the public library, simple everywhere... So the main thing is that i need finacial support for the magazin. I need all possiblle help that i can get. We are also preparing, a action where we gona collect the food and clothes for those who need it, we gona have a five different places where people will be able to bring and give what they can, for the poor people. It is so much job to do and i am not stepping because i am so excscited about his, and i just cant wait to have the magasine on the streat. Also we can do it by mail whta you sugested, i need more people to know about this, etc.

how are you, having good time there in australia? I hope that you do. Ok i am almost got everything ready to print out first 300 copies. Every copy will have 12 pages. I am going to send you a one part of the material and the other part later-in day or two. Also, i want to say this- i want to attract as much young people into this, so i am goign to do it very slowly. No rush... Also a lot of them will help me with collecting food, clothes and everything else that those who realy have nothing will be receiving.

So this thing with the newspaper about the Truth will be a main thing to try and change to do something actually that they will feel into their hearts. So i want to see the effect on their faces when we go to the first family and give them food and clothes as well as the true doctrine. They will feel something inside that will change them totally.

So i am going to do this magasine carefully, :humanity, how can we help, why are we doing it, how to recognize the need of others, how can we actually help to those who need help, and of course the word of God will go throw all this. Also i am going to put article about other religions and what they teach and compare with the truth which we have which is like nothing else. So we are going to do it very slowly.

Love in Jesus
