

Some years ago we baptized brother Reza, and now he and his wife have been expelled from their family home. threatened with death, and have fled to Turkey where they have been partly on the street and partly in the Carelinks safe house, which is now overloaded with two brethren and two sisters living permanently in it. Reza is very scared and frightened. He's appealed to UNHCR for refugee status; please pray he is granted it.

The scale of the work currently going on, especially the various welfare needs of some of the refugee brethren, is really large. For the last couple of months our balance in the Carelinks account has been effectively zero- what comes in goes out, and we have no reserve fund at all. Please do consider supporting our work in whatever way you can, above all with prayer.

With love from your brothers and sisters of Carelinks

I already know about the trinity not existing it doesn't come from the Bible it is more like church tradition rather than bible tradition. I believe that the trinity is from catholic teaching. I also know about the Kingdom of God coming on earth, because I have read it for myself in the Bible. I am also looking forward to that day when Jesus returns from Heaven. I read the Bible every day and I am studying it to see what Gods word says. Yours sincerely Janice. hi, thank you for ur writing, i get the books, and i read some of the chapter, i think they are very simple maybe because of the chapter are like beggning of the christianity or maybe i read a lot from internet but i found your book easy, not more explaining i mean deeply meaning or explaining. anyway thank you for sending me the books. i am living in Newcastle upon tyne. i am a muslim, i want to be a christian but ii want to be ready for it, i started to search and read about christianity 3-4 month ago.
