

Various updates concerning recent items we have been asking for your prayers about.

Firstly, Bro. K from Pakistan is still on the run, not only have death threats appeared against him because of his conversion of Moslems, but he says that chalked up graffiti against him has been appearing on walls around where he was once living. He is applying right now for visas to the UK and Australia and we ask for your prayers that the authorities will be moved by the Father to grant this to him.

He writes:

Dear Fellows

Greetings from Islamabad.

I'm writing you from Islamabad.

Letters from UK and Australia
safely reached to me.

I have made a draft for Australian Embassy today and will be
sending all other related documents tomorrow.

I'll tell you the updates regularly.

Thanks

in His unfailing Love

K

On another point related to Pakistan, we're very pleased with the responsible attitude our brethren and sisters in Pakistan are showing towards the large influx of newly baptized brethren and sisters after the recent visit.

On the sisters' own initiative, they have organized a sisters' weekend for the newly baptized sisters, and ask us for our prayers and support.

Second, we have arranged rehousing for our young sister here in Latvia who was thrown out of her home recently, and all concerned are deeply grateful for your support in this matter. She is now out of the psychiatric hospital and readjusting to life.

Third, the BBFU team have received amazing response from a recent series of advertisements in Eastern Europe, and it's a wonderful thing to see the brothers and sisters in Eastern Europe working hard in responding to it all. We pray for each envelope we're mailing out, that a life will be touched by the Truth, and that ultimately they will respond. We appreciate your assistance with the mailing costs, and trust that our united effort will be pleasing to our Father.

If any ecclesia or individuals anywhere would like to help with mailing out material, please let us know. There is ample work to be done in this sphere!

Sis. Robin Jones has also received many replies from advertising Bible Basics in rural Australia, and our prayers are with her and her team in responding to this

Fourthly, we have been able to distribute a number of clothes, glasses, vitamin tablets and leaflets for distribution to our needy brethren and sisters in the Baltics recently. They are all really appreciative of your loving care. We're so thrilled at the way they are using the leaflets so actively; there is now an upward spiral of response going on, as each new convert shares the truth with others.

Finally, we ask you to pray for our ex-Moslem sister who had a nervous breakdown whilst on the run and returned to her home country, where she was imprisoned. She has been released temporarily but the situation is very delicate and only prayer will help her through this. The nervous pressure upon our refugee brethren & sisters is so easy to under-estimate. With love in our Lord and the Hope of His Kingdom
